## Cannabis Legalization Map – Updated September 2019

12.19.2018

Utah has joined a growing list of states to legalize marijuana. With the addition of Utah, thirty-three (33) states plus the District of Columbia have legalized marijuana for either medical or recreational purposes.

Please find below a map and list of states that have legalized marijuana for either medical or recreational use. **States to Legalize Recreational & Medical Use States to Legalize Medical Use**

Michigan Montana Washington Utah Oregon Arizona  
California New Mexico Nevada North Dakota Alaska Minnesota  
Colorado Oklahoma Vermont Missouri Massachusetts  
Arkansas Maine Louisiana District of Columbia Florida Illinois  
Ohio West Virginia Maryland Pennsylvania Delaware  
New Jersey New York Connecticut Rhode Island New  
Hampshire Hawaii

For quick access to the map and live updates of the legalization of marijuana throughout the United States, please visit the Butzel Long Cannabis Law Specialty Team Page.

Butzel Long's Cannabis Law Specialty Team works closely with cannabis growers, dispensaries, brand owners, and related entities, to navigate the patchwork of state and federal cannabis laws, guiding clients in areas such as state and local licensing, intellectual property procurement and enforcement, real estate transactions, corporate finance, structure and formation, and complex litigation. Contact Thomas Nafso for more information about how Butzel Long can help your cannabis business.
