## Korea International Team

For many years, Butzel attorneys have effectively assisted both US clients establishing businesses in Korea and Korean clients launching business operations in the US. In effect, our attorneys provide effective, practical legal advice and counsel to facilitate the challenge of globalizing business operations.

Butzel is a full-service law firm with strong ties to Korea. The firm's Director of Korean Client Relations has traveled extensively to South Korea in representation of firm clients. He coordinates the firm's overall efforts to serve Korean clients doing business in Michigan and in China as well as American-based clients doing business in South Korea. He is a frequent speaker in Korea and in the US at programs hosted by, among others, KOTRA, KITA, AIN Global, and the Korea Economic Institute. He also serves as an honorary Adjunct Senior Associate at The Asia Institute, SolBridge International School of Business in Daejeon, South Korea.

Butzel attorneys are leading advisors to automotive supplier companies worldwide. We have expansive industry resources and have strong alliances with many automotive supplier associations across the world, including Korean associations such as KAICA and KAMA. Our automotive industry experience has allowed our attorneys to assist automotive suppliers in Korea as well as suppliers from other parts of Asia.
