

SERVICES

Solid & Hazardous Waste Siting

Butzel's environmental attorneys have been environmental consultants and in-house counsel for solid and hazardous waste companies. This gives us real-world experience in the solid and hazardous waste business. We provide practical counsel on all aspects of solid waste facilities, including community negotiations, permitting, transportation and disposal contracting, landfill and treatment facility siting, landfill closure and redevelopment, methane recovery property acquisition, recycling facilities, Treatment, Storage and Disposal (TSD) facilities, and composting facilities.
