Given today's highly regulated landscape, employers are scrambling to make sure every "i" is dotted and every "t" is crossed. In this webinar, employers and healthcare practitioners will gain an overview of the various regulations that have come into play under the HIPAA Omnibus Rule and related laws and regulations, as well as the Affordable Care Act (ACA). Among the Topics covered will be the following:

- HIPAA assessments, training and updates for annual compliance mandates
- General HIPAA compliance programs and the annual assessments and training attendant to an "effective" program
- Risk of not complying with the HIPAA Compliance Program mandates
- Discussion of recent cases involving HIPAA non-compliance
- HIPAA requirements that you might not expect
- Changes employers may want to make to their Business Associate Agreements regarding risk assessments
- Discussion of recent IRS guidance on PPACA impacting health reimbursement arrangements, flexible credit plans, and opt-out cash programs
