IN THE NEWS

works closely with automotive industry companies and partners to provide leading-edge predictive capability in connected car, telematics, warranty and safety risk mitigation. Prior to joining We Predict, she served as vice president of U.S. Auto Quality at J.D. Power with responsibility for key U.S. automotive quality studies designed to bring the Voice of the Customer (VOC) into the vehicle and component development and delivery process. Previously, Renee wor [Read more](#)

Jennifer A. Dukarski Jennifer A. Dukarski is an auto technology attorney and partner based in Butzel Long's Ann Arbor MI office, practicing in the areas of intellectual property, media and technology. She focuses her practice at the intersection of technology and communications with an emphasis on the legal issues arising from emerging and disruptive innovation: digital media and content, vehicle safety, connected and autonomous cars, shared mobility, infotainment, data privacy and security. Jennifer was named one of the 30 Women Defining the Future of Technology in January 2020 by Warner Communications for her innovative thoughts and contributions to the tech industry. A self-titled "recovering engineer," Jenni [Read more](#)
