Butzel Long attorney Jennifer Dukarski discusses cybersecurity and autonomous vehicles on the *Automotive News* 'Shift' podcast

11.17.2020

ANN ARBOR, Mich. – Jennifer Dukarski, Butzel Long attorney, shareholder and leader of the firm's Connected Car and Autonomous Vehicle Specialty team, was featured recently on the *Automotive News* "Shift" podcast (<https://www.autonews.com/shift-podcast-101920>). She discussed cybersecurity, the cyber regulatory landscape, consumer data protection and connected cars as well as autonomous vehicles.

Dukarski focuses her practice at the intersection of technology and communications with an emphasis on emerging and disruptive issues: digital media and content, cybersecurity and privacy, infotainment and shared mobility, and connected and autonomous cars.

In her practice, she has assisted clients with defamation, invasion of privacy, copyright, and other content-based claims. She focuses on compliance with various industry regulations and has become a national leader in legal issues facing emerging automotive technology and is the leader of Butzel Long's connected car working group.

A self-titled "recovering engineer," Dukarski was named one of the 30 Women Defining the Future of Technology in January 2020 by Warner Communications for her innovative thoughts and contributions to the tech industry.

Dukarski is a graduate of the University of Detroit Mercy School of Law (J.D., *magna cum laude*, 2010). She's also a graduate of the University of Detroit Mercy College of Engineering and Science, (B.S., Mechanical Engineering, *summa cum laude*, 1996).
