## Butzel Long attorney Rick Berg profiled in Crain's Detroit special report

7.24.2016

### **Special report: The Litigators**

#### **14 of the lead attorneys behind recent major court action**

This report showcases 14 of the lead attorneys behind recent major court action. Why these men and women? The attorneys profiled are the result of litigation reporter Chad Halcom's efforts combing through court filings, sending queries to law firms in our database, and reaching out to a range of other personalities to identify attorneys. These are the litigators driving the big verdicts, major settlements and interesting litigation around the state.

The cases in this report are the result of a subjective selection, but we believe they represent a cross-section of the cases that matter in the Michigan business community today.
