DETROIT, Mich. – When SECURE 2.0 became law in December 2022, it offered an extraordinary variety of new optional retirement plan changes rolling out over several years. Congress's goals included strengthening retirement readiness by increasing access to workplace retirement plans and improving opportunities to save for retirement. Butzel is hosting a free webinar from 12-1 p.m. on Wednesday, February 21, 2024 designed to help employee benefits plan administrators understand options rolling out SECURE 2.0 in the next two years, and why organizations may or may not want to make some of the new optional plan changes.
