Butzel AI Institute: Reinventing Manufacturing with Generative AI

Publication

5.23.2024

Butzel, a pioneering Detroit-based law firm with a rich history of steering innovation since 1854, is proud to announce a series of professionally tailored seminars dedicated to the evolving realm of generative AI. This program is crafted to equip industry frontrunners and corporate leaders with in-depth insights and actionable knowledge on generative AI's burgeoning landscape.

This second session builds on the initial concepts from Session 1 of Butzel's AI Institute to explore how generative AI is redefining manufacturing. From creative design to efficient supply chain management, Butzel attorneys will explore available AI tools while addressing pivotal concerns that need to be on your radar when evaluating this new technology for possible adoption.

This webinar will be hosted by Butzel attorneys: Angela Shapiro, and Andrew AbdulNour.
