The CEU Institute will reach out via email within a few days after the last session of the webinar series, to verify licensing information. Please check your “junk/spam” folder as sometimes the email will be sent there.

Any questions regarding your credit should be directed to the CEU Institute at info@ceuinstitute.net.

Adjusters must attend the entire webinar series and respond to all three (3) audience polling questions during each session to receive credit.

Note: If attendees are licensed in other states, that state must be approved in order for CEU to post credit to that state. CE credits are not like licenses, which can be reciprocal with other states.
