### Scott Seaman to Speak on Best Practices and Strategies for Confirming Chapter 11 Plans with Insurance-Funded Settlements

August 8, 2024

Webinar

Hinshaw partner Scott Seaman—the co-chair of the firm's global Insurance Services Practice Group—is scheduled to co-present a CLE webinar titled "Confirming Chapter 11 Plans With Insurance-Funded Settlements: Strategies After *Truck Ins. Exchange v. Kaiser Gypsum*" on August 8, 2024.

This CLE webinar will review the **United States Supreme Court** decision in *Truck Insurance Exchange v. Kaiser Gypsum Co. Inc.* and examine its implications for insurers, debtors, injured plaintiffs, and other key bankruptcy participants. Topics will include negotiating plans involving insurance-funded settlements, essential insurer-related provisions to include in plans, and new objections to plan confirmation.

The panel will also consider:

- Can insurers leverage their interest into a voting right? Is the right to object equivalent to the right to vote?
- Can a plan be confirmed without insurers' consent?
- If insurers raise coverage issues, will bankruptcy courts need to interpret policies, influencing insurance law?
- What does the duty to cooperate entail for a debtor-in-possession?
- Are insurers vulnerable to bad faith claims by third parties due to their bankruptcy conduct or litigation activities?

For more information and to register, [visit Stafford's website](#).

Seaman also [discussed the \*Kaiser Gypsum\* ruling](#) in several recent news media articles.
