Jason Oliveri to Present on AI Governance at the Global GRC, Data Privacy & Cyber Security ConfEx

May 21, 2025
New York, New York

Hinshaw partner Jason Oliveri will join other industry experts for a collaborative roundtable discussion at the Global GRC, Data Privacy & Cyber Security ConfEx event. The session is titled "AI Governance: Navigating Ethical, Legal, and Security Challenges in Machine Learning Applications" and will take place on May 21, 2025.

The discussion will cover:

- Promoting transparency and fairness in AI-driven decision-making processes
- Privacy concerns related to data used in the training and deployment of AI
- Reducing the risks of bias, discrimination, and unintended consequences in AI systems
- Understanding regulatory trends that will shape the future of AI governance
- Cybersecurity measures in AI systems to protect against exploitation
