Cheryl Wilke Discusses E-Verify with Florida Trend

October 10, 2018

Hinshaw's Cheryl Wilke was quoted in *Florida Trend's* "Fear of Compliance" article in October 2018. The article discusses e-verify, the federal government program that electronically compares the information submitted by a prospective employee with data from the Social Security Administration and the Department of Homeland Security.

"My employers who use it, love it," said Wilke. "The times when it is flawed due to something other than input error are about zero."
