BIOGRAPHY

Jordan Kovnot focuses his practice on internet, eCommerce, and software matters for issues such as licensing and technology transactions, business and commercial transactions, privacy and data security, and intellectual property. Jordan previously served as an adjunct professor teaching an internet law course at Fordham University School of Law. He was also previously the Privacy Fellow and Interim Director of Fordham's Center on Law and Information Policy where he created a first-of-its-kind privacy education program designed to educate middle-school students on the interplay of popular technologies, privacy, and reputation management. This curriculum is now taught by law students at schools across the country.

Client Experience

- Work with software and technology providers from start-ups to those with +\$2 billion in annual revenue in developing and refining contracts, streamlining sales processes, and monetizing and protecting data
- Counsel high tech employers in developing comprehensive non-disclosure agreements and intellectual property protections for use with employees, consultants, vendors and investors
- Negotiated complex enterprise software agreements against some of the world's largest financial and pharmaceutical companies
- Assist start-up app developers and established licensors create customized terms of use, privacy policies and other forms of online contracts that mesh with business plans and remain compliant with a changing legal and regulatory landscape
