

→ Sheppard Mullin Impact Initiative

Launched in 2021, the Sheppard Mullin Impact Initiative engages all members of the firm in supporting local communities and causes through both financial giving and acts of service. Since its formation, the Impact Initiative has supported organizations focused on advocacy, equity, social justice, legal services, food insecurity, education, homelessness, healthcare and mental health. The Impact Initiative serves as a strategic bridge to the firm's existing legal pro bono and charitable efforts, ensuring that the culture of giving and service is further embedded in our firm.
