

## Cybersecurity 2019: Protecting Sensitive Information

**Public Contracting Institute**

02.19.2019

**Time:**

11:30 am - 1:00 pm EST

**About:**

This series, taught by two experts in the field, will walk participants through the most important issues facing government contractors as they navigate the fast-changing issues of cybersecurity. Starting with a survey of the current threats confronting all companies in the cyber world, and ending with a session about how to deal with a breach of your systems, this series will also delve into the new government contracting rules relating to cybersecurity, as well as the new twists on existing technology and privacy laws in light of today's cyber events.

**Register here**

**Agenda:**

1. Introduction and Overview
  1. The threat (including international and APT, government investigations)
  2. The data
  3. The law
  4. Agency-specific regulations for protecting unclassified information
  5. FAR Basic Safeguarding Rule
