

The New Competition Tool of the EU in Practice

Lexxion Online Seminar

01.18.2021

Sheppard Mullin Speaker:

Robert Klotz - Welcome and Introduction

About:

This online seminar, to be held on January 18, 2021, includes a 360-degree view of the European Commission's New Competition Tool (NCT). Experts from the public and private sectors will provide exclusive insights into the NCT's practice and discuss the tool in panel from a macro to a micro perspective.

Are we going to see a shift in EU competition rules for the digital market? A New Competition Tool (NCT) can have a major impact on global enterprises and their European competitors. Will a reform in European Competition Law and ex ante regulations strike the right balance and guarantee both a level playing field and a Europe that's open for business? You will receive the answer to this question in our online seminar. Right after the publication of the NCT proposal of the European Commission you can discuss and exchange ideas with our experts. Do not miss this unique opportunity.
