

The Future of Finance is Now: Blockchain, NFTs, Cryptocurrency, and the Role of Digital Assets

Webinar
05.24.2022

The Future of Finance is now! Bitcoin, Stablecoins, Blockchain, Cryptocurrency, NFTs, DAOs what does it all mean, and why should you care? Join leading practitioners and other thought leaders from across the United States as they discuss the emerging area of digital assets. This 2-part series will provide both introductory sessions for those interested in learning the fundamental concepts as well as deeper examinations into specific topics. Areas of practice addressed during the 2-part series include: intellectual property, banking and finance, taxation, securities regulation, investment funds, criminal investigations, commercial litigation, and marital dissolution. The first session will be held on May 17, 2022 and the second session will be held on May 24, 2022 – you can enroll in either or both days.
