

Advising Providers: Legal Strategies for AMCs, Physicians, and Hospitals

Digital Health and Artificial Intelligence

New Orleans, LA

02.05.2024 | 4:00-5:00 PM

Event Sponsor: American Health Law Association

AHLA is pleased to announce that Advising Providers: Legal Strategies for AMCs, Physicians, and Hospitals combines the best of two long-standing AHLA programs— the Academic Medical Centers and Teaching Hospitals Institute and the Physicians and Hospitals Law Institute.

This comprehensive program will feature accomplished experts who will provide in-depth analysis of the unique legal, regulatory, compliance, and business issues facing each industry segment. Whether you advise AMCs and teaching hospitals, physicians and physician organizations, or hospitals and health systems, you will find content focused on the issues your institutions and clients face and learn strategies for advising them.

Digital Health and Artificial Intelligence

- Digital health and AI industry regulators and applicable laws
- AI in health care—what’s going on and where is regulation of AI headed?
 - President Biden’s Executive Order and the role of HHS
 - ONC’s finalization of rule to increase algorithm transparency
- Legal risk areas for digital health and AI, including privacy, corporate practice of medicine, fraud and abuse, and FDA regulation of medical devices
- Recent developments in digital health and AI, including enforcement actions and regulatory guidance
 - HHS OIG Special Fraud Alert on Telehealth
 - FTC actions regarding AI
 - FDA actions regarding AI
