Joint Venture Bumps in the Road: A Practical Discussion of Legal Issues and Solutions When Things Don't Go as Planned

October 23-25, 2024

ICSC+U.S. LAW has been a must-attend event for legal practitioners in the Marketplaces Industry. Join colleagues in Orlando this fall and get the impactful, timely legal content you've come to expect, plus opportunities to make new connections to drive your practice forward.

This session will be a practical interactive discussion of common issues joint venture partners encounter when things do not go as planned and potential solutions. Topics will include what happens when a joint venture needs more money and when sponsors and investors don't agree on key business decisions. We will also cover other typical joint venture pressure points, including capital contribution issues, allocation of control and decision making, exit strategies, and implications on project and loan guarantees.
