Castle Publications is pleased to announce that the upcoming seminar series will be presented in person as well as via a live broadcast. Attendees at Castle's programs will see and hear Attorney Richard J. Simmons, one of the nation's most highly sought-after speakers and authors on employment law. Showcasing his energetic presentation style, Mr. Simmons will present the upcoming series while featuring his invaluable Manuals as the program texts for each of the three seminars.

Each of the programs is designed to provide a meaningful examination of the **state and federal laws** in their respective areas, as well as many practical concerns. Particular attention will be devoted to areas of frequent concern to California employers and common pitfalls that have resulted in significant employer liabilities. The programs are intended to show employers **HOW TO** avoid, limit, and eliminate liabilities. Along with the extensive course materials (provided to all registrants), the programs will enable employers to understand what the laws require and how to comply.

The Employment Discrimination and Employee Relations Laws Program is designed to guide participants through the ever-changing maze of state and federal employment discrimination laws. The program is attended by HR professionals, personnel specialists, attorneys, owners, supervisors and other management officials. Registrants will receive a copy of Richard J. Simmons' **NEW 2024 EMPLOYMENT DISCRIMINATION AND EEO PRACTICE MANUAL FOR CALIFORNIA EMPLOYERS (over 910 pages)**. This is the first work of its kind – a one-stop desk reference to state and federal EEO, employment discrimination, anti-harassment, and record retention laws affecting California employers.

The program will also examine other personnel laws and issues of significance to California employers. The rapidly developing laws addressing **disability discrimination, reasonable accommodation, harassment,**

retaliation, pregnancy discrimination, “wrongful discharge” and “unfair termination” of employees will be examined. Simmons’ book provides a detailed review of the means by which employers can **AVOID LIABILITIES** in this area. Employers have been found liable for millions of dollars in damages for wrongfully terminating employees.

The course will also present a review of questions that can be asked in **interviews and applications**, and how to treat employees on **pregnancy and workers’ compensation leaves of absence**.

Among the many subjects that will be discussed in the program are the following:
