

### IAHA Quarterly Lecture

Webinar

09.19.2024 | 8:30-9:45 AM

Event Sponsor: Illinois Association of Healthcare Attorneys

Our panel will discuss the impact of the Supreme Court's recent decision in *Loper Bright Enterprises v. Raimondo* to overrule the *Chevron* deference doctrine, changing both the compliance and litigation landscape in healthcare.

The *Chevron* doctrine required courts to defer to federal agencies' interpretations of statutes under their purview, presuming that their interpretation was reasonable. The June 28, 2024 decision in the case of *Loper Bright Enterprises v. Raimondo* overturned this precedent.

In addition to providing background on *Chevron* and *Loper*, our panelists will discuss what they see as the potential impact of overturning *Chevron*, what they expect to see from administrative agencies, legislatures, and the courts, and how the impact may be felt, both short-term and long-term, to organizations operating in the healthcare arena.
