Join us for the second installment in our webinar series as we delve further into the complex world of managing global class actions and cross-border multi-party litigation. This session aims to provide attendees with a pragmatic approach to overcoming the unique challenges that arise when handling these multifaceted legal matters on a global scale. Our focus will be on the real-world challenges legal professionals face when operating across jurisdictions. We'll provide you with a roadmap to navigate through key issues, from coordinating a unified global defense to managing complex discovery processes and protecting your organization's reputation.

Key Topics:

- **Global Coordination and Strategy Alignment:** Learn how to synchronize your global legal strategy, ensuring cohesive defenses, evidence presentation, and overall case management across different jurisdictions.
- **Disclosure, Discovery, and Privilege Management:** Navigate the complexities of cross-border disclosure and discovery processes while effectively managing privilege issues to protect sensitive information.
- **PR Management and Brand Protection:** Understand the nuances of maintaining your organization's reputation and protecting its brand during the heightened public scrutiny that often accompanies class actions and mass litigation.
- **Litigation Funding and Cost Management:** Explore strategies for dealing with litigation funding, including how to manage costs effectively and counteract a financially backed claimant.
