

Time for a Checkup: Evaluating the Withdrawal of the Health Care Antitrust Guidelines

11.21.2024 | 2:00 PM EDT

Event Sponsor: The Federalist Society

In 1996, the FTC and DOJ issued Statements of Antitrust Enforcement Policy in Health Care. The statements addressed important topics, such as hospital mergers, information sharing, joint purchasing, and provider joint ventures. The DOJ withdrew the guidelines in February 2023, and the FTC followed in July. Some healthcare companies – and businesses in other sectors – that have established relationships in reliance on these statements are concerned as to whether long-running arrangements should be modified or terminated. This panel will discuss their perspectives on the withdrawal of the statements on future initiatives, and what previous arrangements may be at risk.
