

US Trade Controls Compliance in Europe Conference

How to Navigate the Flooded Zone: Survive and Thrive in the Rising Tide of US Trade Controls on High Technology

Düsseldorf, Germany

03.19.2025 | 10:00-11:00 AM

If you deal with controlled US goods the ITAR and EAR are acronyms you know all about and you have probably already attended this leading conference. But as we all know, it never gets easier, review and revision by the Biden administration has added a whole new dimension. See you in Germany guys.

The conference promises once more to be lively, with differing opinions stimulating an open debate, no 'death by power point' here, come prepared to learn and contest and leave with new perspectives.

And other trade controls compliance professionals.

Partner Scott Maberry and Associate Julien Blanquart will be speaking on the panel "How to Navigate the Flooded Zone: Survive and Thrive in the Rising Tide of US Trade Controls on High Technology" from 10:00-11:00 AM.
