Navigating Healthcare Risks in a Rapidly Evolving Patient and Provider Centered AI Landscape

Join Sheppard Mullin's Healthy AI team and Marsh McLennan for a CLE webinar addressing legal considerations and risk management strategies that hospitals, health systems, and provider organizations should consider when deploying AI. The webinar will cover the following key topics:

- **Regulatory Compliance**: Understanding the legal frameworks and regulations governing AI use in healthcare
- **Third-Party Contracting**: Exploring key considerations for healthcare providers contracting with third-party AI vendors
- **AI Integration**: Strategies for integrating AI technologies into existing healthcare systems
- **Key Legal Risks**: Identifying key legal risks associated with AI implementation
- **Risk Mitigation**: Exploring insurance as a risk mitigation tool when deploying AI in healthcare environments
