Welcome to Part 2 of our series on the **Impact of the One Big Beautiful Bill Act on Healthcare**. Part 1 of our series covered the national implications of the bill. Part 2 of the series will examine the interplay between federal law and Florida-specific policies, informed by key trends in the local healthcare landscape, with a particular focus on how smaller providers and emerging healthtech companies can adapt to potentially disruptive changes.

Healthcare stakeholders of every kind are encouraged to attend this important webinar series—including hospital and health system executives, long-term and home-based care providers, tech companies serving Medicaid populations, investors, and anyone else affected by fundamental shifts in how the Medicaid program is financed, regulated, and delivered.

The format will include live discussion, presentation slides, Q&A and practical guidance from legal and strategic experts. This is a timely opportunity to get ahead of changes that may dramatically reshape access, compliance, and business viability.

Presented by

- **Greg Horowitz**, *Principal*, HealthConnect Partners
- **Adam Herbst**, *Partner*, Sheppard Mullin

HealthConnect Partners is an economic development consultancy based in South Florida, with deep relationships across provider organizations, technology companies, and local health networks. The firm specializes in connecting healthcare technology companies with a curated network of small and medium-sized providers, helping both sides navigate growth and adoption challenges. Greg has spent the past decade

building Miami's healthcare and innovation ecosystem by facilitating partnerships, convening stakeholders, and creating pathways for growth among emerging and underserved segments of the market.
