Panorama Capital

Panorama Capital is a seasoned team of technology and life sciences investors with a singular focus: helping entrepreneurs build market leading companies. We invest in entrepreneurs and teams who share our values: a passion to build great companies, an unyielding focus on people and teamwork and a commitment to integrity. We invest across the spectrum, from entrepreneurs with a great idea to more established businesses. Regardless of stage, we look for exceptional management teams pursuing large market opportunities, whose greatest growth lies ahead.

We recognize that success requires more than just capital. It requires hard work and a commitment to do whatever it takes to win. Our philosophy is to make that same commitment to the teams we support, over and above our financial investment. We take a hands-on, highly collaborative approach to investing, bringing to bear the team's extensive operating and investing experience to each portfolio company. Our team consists of former entrepreneurs, operating executives, engineers and physicians who have worked together for many years. This collective experience gives us a powerful combination of industry relationships, entrepreneurial, operating and technical expertise that we draw upon to help our companies succeed.
