### **Current Export Control Compliance Issues**

Sheppard Mullin Washington DC 06.19.2012

U.S. export controls and economic sanctions are changing all the time. Companies need to keep abreast of these changes to avoid compliance problems. Sheppard Mullin invites you to a lively lunch seminar hosted by our international trade partners Scott Maberry and Thad McBride. Scott and Thad will lead a discussion on emerging export and sanctions compliance issues, how to design and implement a compliance audit program, and how to decide whether to self-disclose violations. The discussion will include regulatory and practical considerations based on current cases and recent experience.
