

Digital Law Forum - Storm Clouds: Preventing and Managing Security Breaches

Kellogg Auditorium at Silicon Valley Bank
01.30.2013

Sheppard Mullin's Digital Law Forum Presents
Storm Clouds: Preventing and Managing Security Breaches

The final of our three part 2012-2013 Cloud Computing Series focuses on what happens when things go wrong in the Cloud. Our panel will focus on the real threats to network and data security and the practical aspects of managing security breaches, including forensic investigations, notification, and public relations.

This program is intended for in-house counsel and director-level and above executives from public and private companies.

Wednesday, January 30, 2013
