

What Small Businesses Need to Know About Cybercrime

Third Thursday Emerging Company Webinar Series

via WebEx

Ninety-four percent of companies that suffer major data loss incidents go out of business within 2 years. Start-up and mature companies now identify cyber-security as their number one concern. Cyber-attacks and security breaches are increasing in frequency, sophistication and severity. Cyber criminals are targeting multiple industries to steal data or disrupt business operations in critical sectors. Our lawyers will discuss why you should be aware of this threat and how you can protect yourself from losing your assets and perhaps your business.

Please join Sheppard Mullin for our monthly Third Thursday Emerging Company Webinar Series educating entrepreneurs and emerging companies on the key legal issues they face during the growth of their companies. These complimentary 1-hour webinars are held through WebEx on the third Thursday of the month at noon. They will have both an audio and PowerPoint component.
