

→ Emerging Company & Venture Capital

Our Emerging Growth & Venture Capital lawyers serve as trusted advisors to both venture capital firms and the emerging growth companies in which they invest. We have formed and helped grow thousands of new companies in all major industries, including digital media, software and information technology, Internet, telecommunications, semiconductors, life sciences, and clean technologies. We have advised top tier VCs and corporate investors on numerous debt and equity financings and regularly assist VC fund managers with the full gamut of their organizational and ongoing back office legal needs.

We provide “one-stop shop” legal services including:

- Corporate Formation & Venture Financing
- Mergers & Acquisitions
- Employment
- Intellectual Property & Licensing
- Public Offerings
- Corporate Governance
- Litigation

We provide more than just legal advice:

- The monthly Sheppard VentureLink program helps emerging growth companies raise capital by connecting select start-ups with emerging growth and venture capital lawyers throughout Sheppard Mullin, who can in turn help target funding sources.
- The Sheppard Emerging Company Webinar Program focuses on the legal issues faced by start-up and emerging growth companies.
- Our flexible fee arrangements offer emerging companies alternative arrangements so we can support our clients as they grow.
- With offices around the world, we maintain a strong network of relationships with VCs, entrepreneurs and third party experts in the start-up ecosystem.

We provide focused expertise in each of these major industries through a variety of cross-disciplinary industry teams, such as Digital Business, Life Sciences, Healthcare, Video Games, Climate Change and Clean Technology, among others.
