

Sheppard Mullin Represented Octus in Acquisition of Sky Road

06.02.2025

The firm represented Octus, formerly Reorg, the leading provider of credit intelligence and data, in its acquisition of Sky Road, an innovator in credit portfolio management solutions for CLO, MMCCLO, ABF, direct lending and other public and private structured credit. This acquisition positions Octus as the first provider to deliver fully integrated, end-to-end credit intelligence, data and document management, combined with comprehensive portfolio management capabilities tailored for today's credit manager.

The Octus-Sky Road combination offers clients a robust credit portfolio workflow solution, allowing managers to seamlessly act on insights with Sky Road's proprietary trade suggestion models, while monitoring portfolio risks and compliance.

The Sheppard Mullin deal team that represented Octus was led by Andrew Felner, Adam Shipley, David Rostowsky and Ines Briand. Invaluable assistance was provided by Dmitriy Chelnitsky, Josh McLane and Dan Yannuzzi.
