

Sheppard Mullin Represented Aerospace Technologies Group in Sale to Jamco Corporation

09.08.2025

The firm represented Aerospace Technologies Group (ATG), a leading developer and supplier of window shade systems for private and commercial aviation, to Jamco Corporation, a Bain Capital portfolio company and Japan's leading manufacturer of cabin interior equipment for the commercial aviation industry.

Founded in 1998 and headquartered in Boca Raton, Florida, ATG's flagship commercial aerospace product is the aerBlade window shade system, enabling passenger and crew control of window shades at the touch of a button. The acquisition uniquely positions Jamco to enhance its cabin interior offerings for customers such as Bombardier, Gulfstream and Textron Aviation's (Cessna).

The Sheppard Mullin deal team was led by partner and co-leader of the firm's Mergers and Acquisitions team Zac Turke and partner Rambod Peykar and included associate Jeffrey Kozono. Invaluable assistance was provided by partners Frank Dworak, Michael Chan and Peter Park, special counsel Sally Elshihabi and associates Nirav Bhatt and Michael Weissnar.
