

Empowered Women Making a Difference

11.15.2018

On Thursday, November 15th, Sheppard Mullin's Women Lawyers Group of San Francisco hosted an incredibly successful evening of community, conversation, philanthropy - and fun! More than 60 guests heard Doniece Sandoval, founder and CEO of Lava Mae, the mobile shower service that is restoring dignity and providing hope for homeless residents in the Bay Area, talk about radical hospitality and the positive impact Lava Mae is having worldwide. Following Doniece's keynote address, the attendees networked, assembled hygiene kits to be donated to the guests of Lava Mae, and even created their own custom aromatherapy blend with Frankie & Myrrh.
