John's emphasis on litigating intellectual property disputes and background in engineering makes him an asset to his clients.

John litigates high-stakes technology and intellectual property disputes. With a background in chemical engineering, management experience in industry, and extensive experience litigating complex disputes, John seeks custom solutions for his clients' disputes.

John has litigated patent, trademark, and trade secret disputes in Missouri state court and U.S. district courts throughout the country. John is especially skilled at challenging and defending the validity of patents in *Inter Parte* Review (IPR) and Post Grant Review (PGR) proceedings before the USPTO. John further has considerable experience in appellate practice before the Federal Circuit Court of Appeals.

In addition to litigating disputes, John assists clients with a variety of other intellectual property matters, including patent counseling, patentability and non-infringement opinions, due diligence, and licensing.

Representative technologies that John has practiced in include: bio-energy, carbon capture, electroplating, metallurgical processing, plastics and materials, paints and coatings, light emitting diodes (LED), and mechanical/electro-mechanical
