Audit committees can expect their company's financial reporting, compliance, risk and internal control environment to be tested by an array of challenges in the year ahead—from global economic volatility and the Russia-Ukraine war to supply chain disruptions, cybersecurity risks and ransomware attacks, and social risks—including the tight talent market.

The increasing complexity and fusion of risks, and the unexpected interconnectedness of these risks, put a premium on more holistic risk management and oversight.

Join KPMG and Stinson LLP at our upcoming in-person GRC roundtable to highlight top priorities for audit committees as they prepare for another challenging year.
