

GRC Roundtable - Kansas City

Firm Events | Generative AI Risk and Rewards

10.10.2023 | 8 - 10 a.m.

Indian Hills Country Club

6847 Tomahawk Road

Mission Hills, KS 66208

As Artificial Intelligence (AI) is integrated into business processes and systems, legal and risk concerns become paramount. At the next GRC Roundtable, KPMG and Stinson will host a panel discussion examining the impact of Generative AI, such as ChatGPT, on businesses and the law and legal profession. The panel will also discuss the effects AI has on governance, risk and control considerations and will provide insight on strategies to build an enterprise structure, processes and controls that support trusted AI practices.

Please [register](#) to attend by Tuesday, October 3.
