

Cookie Policy

STINSON COOKIE POLICY

A cookie is a small amount of data that is sent to your browser from a Web server and stored on your computer's hard drive. Cookies enable us to identify your browser as a unique user. Cookies may involve the transmission of information from us to you and from you to us. Cookies may also be used by another party on our behalf to transfer information to us in accordance with their privacy policy. Some cookies are "persistent cookies." They are used by us each time you access our website. Other cookies are called "session cookies." Session cookies are used only during a specific browsing session. We may use a session cookie, for example, to remember that you have already navigated through a particular menu, or that you have entered in age information for a portion of a site that is restricted by age.

We use a persistent cookie to identify when a user has accepted pop-up disclaimers and terms on our website. We use this cookie to avoid repeated pop-up disclaimers and terms. If you disable these cookies, parts of the website may not work.

We also use "analytics cookies" that allow the Google Analytics service to recognize your browser or device and, for example, identify whether you have visited our website before, what you have previously viewed or clicked on, and how you found us. This information is provided anonymously for statistical analysis only. Google Analytics cookies are persistent cookies.

Where we include links to social networking services such as LinkedIn, Twitter and Facebook, you may use these links to enable you to share content with your peers or networks or review information that we post on social media. Cookies set by these social media providers are capable of tracking your browser across other sites and building up a profile of your interests.

You may disable browser cookies in your browser or set your browser to warn you when a cookie is being sent. You may lose some features or functionality when you disable cookies. Remember, also, that disabling cookies is browser specific. If you log on using Microsoft Edge, you must also disable cookies in Safari if you use that browser at a different time.

For further information about deleting or blocking cookies, please visit: <https://www.aboutcookies.org/>
