

Patent Agent Emmalie Gulledge Joins Stinson in Wichita

Press Release

10.29.2021

Stinson LLP is proud to welcome Patent Agent [Emmalie Gulledge](#) to the Stinson team. She utilizes her background in engineering to assist clients with the preparation and prosecution of domestic and foreign patent applications.

Gulledge is well-versed in all phases of the patent process and has worked within the fields of biomedical, mechanical and electrical engineering. Prior to joining Stinson, Gulledge assisted with important patent applications at the Office of Tech Transfer and Commercialization at Wichita State University.

"As Wichita continues to grow as an innovation hub, Stinson is committed to the development and protection of intellectual property rights locally. As Stinson's first patent agent based in Wichita, I am excited to be a part of this vision and team." said Gulledge.

Admitted to the U.S. Patent and Trademark Office in 2021, Gulledge is one of eight patent practitioners based in Wichita, KS. She received her B.S. in Biomedical Engineering at Wichita State University.
