Vorys Attorneys Jonathan Ishee and Mairi Mull will be presenting at a complimentary webinar titled, “Apps, Access, and the Opioid Crisis: A Patient Confidentiality Update” on October 9, 2019. The webinar will discuss recent developments in patient confidentiality regulations, which increasingly require health care providers to balance their privacy and security obligations against efforts to ensure interoperability and patient access. In particular, they will discuss proposed changes to 42 CFR Part 2 and to EHR interoperability standards, as well as takeaways from OCR’s first enforcement action under its Right of Access Initiative.
