Partners Jolie Havens and Elizabeth T. Smith and associate Mairi Mull will hold a webinar on June 19, 2019. The webinar, titled “Dazed and Confused: Regulatory Uncertainty Around Cannabis in Ohio and What You Need to Know to Evaluate Your Risk,” will cover the current status of state and federal law in relation to cannabis.

Across Ohio, the rapidly-shifting legal landscape around cannabis has left physicians, patients, and businesses unsure of their obligations under the law, deterring participation in one of the fastest-growing industries and treatment approaches in the country. They will address the key questions Ohioans are facing in this area, as well as the additional changes already on the horizon. To register for this webinar, click [here](#).
