4.10.2018

On April 10-11, 2018, Vorys attorneys Allen Rutz and Dick Schwartz presented at the Energy & Mineral Law Foundation's Special Institute on Petrochemicals. Rutz presented, *The Law of Engineering Malpractice in Construction Projects* and Schwartz presented, *"IT" Happened! What Do You Do?* Rutz's presentation covered legal theories of recovery; the role engineering ethics play in assessing civil liability; the measure of damages and "betterment"; and methods for minimizing engineering liability. Schwartz's presentation covered the ethical constraints imposed upon attorneys involved in investigations and best practices for conducting these investigations.
