Vorys attorney Michael Griffaton will discuss House Bill 606 in a webinar hosted by the Ohio Bankers League. As businesses in Ohio continue to reopen, employers are concerned about potential liability if their employees or customers contract COVID-19 in their workplace or business. The Ohio General Assembly enacted Amended Substitute House Bill 606 (HB606) which is meant to address – and limit – that potential liability. This webinar will cover a range of key components including general immunity for all “persons”, exceptions to general immunity and more.
