Michael J. Settineri

10.22.2015

Vorys Partner Michael Settineri will be presenting at the Kentucky Mineral Law Conference hosted by the Energy and Mineral Law Foundation on October 22, 2015. His presentation is titled "What You Should Know About Induced Seismicity" and will discuss induced seismicity, including the basis on what is induced seismicity, how it is regulated at the state level and how the regulations are impacting the oil and gas industry. The presentation will also include a review and discussion of recent regulatory efforts and litigation.
