7.14.2011

Join Vorys attorneys as they participate in this complimentary seminar, where attendees will hear about critical regulatory issues and Ohio's constantly changing regulations and laws. Guests will also gain insight into Ohio's unique brownfield opportunities and how these properties can be leveraged to support oil and gas development and strengthen the industry's public image.

Keynote speaker, David Mustine, Director of the Ohio Department of Natural Resources, will discuss ODNR's outlook on Ohio shale development.
