**EVENT** | 11.3.2022

Interested in a career bridging science and law ... without having to go to law school?

Tom Thrash and Valerie Moore, patent agents in the Vorys Houston and Orange County offices, will host a webinar providing a brief overview of intellectual property law and patents, with focus upon patent agent and scientific advisor (SAPA) careers. After a brief introduction to the patenting process, we will discuss the responsibilities of SAPAs within the patenting process. We will present paths to becoming a SAPA, including additional programming available through Vorys for those interested in SAPA careers.
