

Understanding Fire Through a Room and Contents Live Burn Event – Part 2

2023 NASP Spring Conference
2.17.23

Forensic failure analysis takes place in the field and in a lab. Part 2 of this two-part program focuses on the lab exam and will be live streamed from a lab in Mountlake, Washington. This interactive telecast will discuss the operation of the equipment used during a typical forensic exam. The attendees will also observe the forensic examination of the lithium-ion style batteries and power strips recovered from the live burn room and contents fire from Part 1.

This is Part 2 of a two-part series is presented by White and Williams Partner Chris Konzelmann. Co-Presenters are Andrew Paris and Taylor Bendt with Jensen Hughes.
