## Where Fire Investigations Go Wrong

Live Virtual Training Webinar  
12.8.22

Join Partner Chris Konzelmann as he moderates a panel discussion with other industry leaders who will provide helpful information handling subrogation, liability and SIU related fire losses. Insurers rely on fire investigators when evaluating claims for coverage, arson, liability and subrogation. The panelists will explore where fire investigations go wrong and provide tips to avoid errors that place the results of the investigation in jeopardy. The event is co-sponsored by the International Association of Arson Investigators (IAAI) and the National Association of Subrogation Professionals (NASP).
