

White and Williams Recognized at Sheridan Elementary School for Leadership Day

6.23.17

White and Williams was recognized at Sheridan Elementary School's Leadership Day for its community partnership with the school. Nancy Conrad, Partner and Chair of the Labor and Employment Group, represented the firm. The program was organized by the school to acknowledge its student leaders and community partners. During an assembly, students spoke to their guests and also performed music.

The firm first adopted Sheridan Elementary, located in Allentown, PA, in September of 2014 with the donation of uniform shirts and school supplies as part of the firm's Adopt-a-School Initiative. In the fall of 2016, we extended our engagement with the presentation of picnic tables and active chairs in support of the school's philosophy of maintaining a positive learning community. Throughout the school year, lawyers and staff visit the school to read with the students as part of the ongoing relationship with Sheridan.
